

MAKE NO MISTAKE. THIS IS ALL INFORMATION THAT EVERYONE HAS ACCESS TO.  
WE ARE DIFFERENT.  
AS WE REVEAL THROUGH THE MOST UNIQUE PATH THERE IS.

# YOURS

YOU ARE THE POWER TO EVERYTHING.

All we do, is show you how to incorporate the concepts, which you already know of. So they work appropriately for your life and so that you no longer, incorporate yourself, unknowingly.

We Do this.

To PROTECT the grey zone. The Area, which keeps the PEACE. Throughout all disturbances.

As those who see ONLY the black and the white.

As long as they see the COLOUR of no option.

Instead of the brightness, saturation and hues of the INDIVIDUAL.

As long as opposing sides are capable of reverting to crude behaviours for COMMUNICATION.

There will be a need for GUARDIANS of the Grey Area.

The PRINCIPLES are simple:

Restitution. Mediation. Reflection.

This ability, YOU are protecting for everyone in society is likewise simple. As everyone should be able to:  
Live Authentically | Shop Locally | Spread Good.

There is a light side and a dark side to everything. The grey area exists. Due to independence and uniqueness. The "Greys" are people who have not yet found their colours.

Good people sometimes, do bad things and vice versa. Few there are who are fully aware of the side they are on.

Yet as world economics bolsters for war. The factions are making themselves known.

We  
reveal  
both  
sides.  
The  
colours  
of the light  
and the colours  
of the night.

PROTECT YOURSELF FROM TRICKNOLOGY

The arts must be protected,  
as it is where creativity grows.  
The only commodity left in the lands of freedom.  
To many of our skilled, unwilling to share, as they  
have tied their consumption to profits.  
And they tighten their grips ever more in futility, as  
they can not grasp why their yields are so low.

Talent earned, learned and transmuted to skill.  
Supposed to be your value, to perform your will.  
But you've been tricked into putting that at the end.  
Newest cars and toys for a land with no bend.  
Straight roads, over hard tundra. No matter the thunderin'  
convenience desired in spite of another's sufferin'.

So you forgot the whole point of the war.  
The point of the arts is to protect, or  
on the dark side, to wreck...

Your Children.  
Protect local Talent from selling out.  
**RAISING CHILDREN AND NOT KIDS!!!**  
The One Art above all Else!
